

Robo OFF Road Car Race

Event Description:

Get ready for an adrenaline-filled experience with the Off-Road Challenge, where innovation meets endurance! Participants will design and drive their vehicles over a rugged off-road platform featuring mud, water, rocky terrain, and hill obstacles.

Event Rules & Guidelines:

1. Team Composition

- Each team can consist of **4 members** from the same or different branches.
- One team member must act as the **driver/operator** during the race.

2. Robot/Vehicle Specifications

- Power source: **Battery-operated only** (no fuel engines allowed).
- The vehicle must be **wireless** (RC) or **autonomous**.
- Vehicle should have a clearly visible **team name tag**.

3. Track Details

- The track will consist of **multiple terrains**:
 - Mud pits
 - Shallow water section
 - Rocky zone
 - Inclined slopes and hill area
 - Obstacle course with curves and bumps
- The design ensures **progressive difficulty** to test stability and endurance.

4. Race Rules

- Each team will get **one trial run** and **one final run**.
- The vehicle must complete the track **in minimum possible time**.
- Teams must not damage the track or obstruct other participants.
